

The Impressed Pro[®] Marine Condition Score System

Developed and produced by CCP International

The Impressed Pro® Marine Condition Score System:

The purchase of a yacht often means the fulfilment of a long-cherished wish for you as the new owner. If you buy a new or an older yacht, it is very important to draw up a maintenance programme for the yacht. Your yacht is subject to many types of contamination, all of which cause a significant degradation of the surface. To keep your yacht in the proper technical and aesthetic condition, it is important to make the right choices in the way you maintain the different surfaces of your yacht. The Impressed Pro® Marine Condition Score System provides guidance in determining the most appropriate maintenance methodology.

The Impressed Pro Marine Condition Score System consists of a unique formula in which the sum of 8 variables determine the ultimate technical condition of your yacht. This so-called 'quick scan' ultimately determines the condition score of the surface.

This result will allow you, based on the Impressed Pro® Marine Condition Score System, to determine how to clean and protect the surface and to preserve it in accordance with a maintenance programme.

No more struggling in front of a shelf of products, because with a clear and simple quick scan we provide a tailor-made maintenance programme for your yacht!

All with the aim of increasing your yacht's uptime and minimising downtime. This way, you can enjoy your yacht to the full and make lasting memories!

The 8 variables included in the Condition Score System:

- 1 Type of surface**
GRP/Polyester, Composite, Steel, Aluminium, PVC, etc.
- 2 Degree of contamination**
Degree of contamination present on the surface.
- 3 Contamination load**
Determination of the contamination load based on environmental and climatic factors.
- 4 Chalking or weathering**
Determination of the degree of chalking or weathering.
- 5 Damage**
Degree of damage and severity of the damage.
- 6 Age**
What stage of the economic life cycle the surface is in.
- 7 Maintenance history**
To what extent maintenance has been carried out and the intensity thereof.
- 8 Perception/Aesthetics/Appearance**
The extent to which this is important.

Increase the uptime of your yacht!

1

Condition score 1
Excellent condition

2

Condition score 2
Good condition

3

Condition score 3
Reasonable condition

4

Condition score 4
Moderate condition

5

Condition score 5
Bad condition

The Impressed Pro® Marine Condition Score System :
