

Glass & Stainless Steel Cleaner

Technical Data Sheet

Publication date: 9th of March 2021

Applications:

Glass & Stainless Steel Cleaner is an innovative and powerful cleaning agent with unique polishing ingredients for effortless removal of ingrained dirt, including corrosion, bird droppings, limescale and salt residues. Restores glass' surface clarity by polishing the surface. Ideal for windows and portholes.

Instructions for use:

1. Always shake well before use.
2. Always apply a small amount of Glass & Stainless Steel Cleaner to a wet, cotton cloth.
3. Remove contamination from the surfaces to be treated in circular movements.
4. Glass & Stainless Steel Cleaner can also be used in combination with a polishing machine.
5. Rinse the surface with plenty of clean water.
6. When using on stainless steel and/or when the surface has a grain structure, always work along the surface structure in order to avoid scratches.
7. To prevent rapid recurring fouling, it is advisable to treat the cleaned glass with Synthetic Glass Protector.

Product usage:

Light to moderate soiling	Approx 25 m2 per litre
Moderate to heavy soiling	Approx 20 m2 per litre
Heavy soiling	Approx 15 m2 per litre

The above usage is indicative and should be determined by first applying to a small test area.

Considerations during application:

Always place a reference test on the to be treated surfaces in order to determine both adhesion and the technical and aesthetic result.

Specifications:

Appearance:	Liquid
Color:	Dark yellow, light brown
Scent:	Characteristic
pH:	≈ 7
Degradability:	Biologically optimal

Hazard symbols and H & P statements (CLP):

GHS07
Warning

H-Phrases: H315 - Causes skin irritation.

H319 - Causes serious eye irritation.

P-Phrases: P264 - Wash hands, forearms and face thoroughly after handling.

P280 - Wear protective gloves.

P302+P352 - IF ON SKIN: Wash with plenty of soap and water.
