

Applications:

Power Protect is a protective agent for electrics. It forms an ultra-thin, flexible and water-repellent layer that prevents dirt penetration and combats corrosion. It has a powerful penetrating, moisture repelling and preservative effect.

Helps prevent short circuits and rust formation on all metal components. The protective layer is non-insulating and can withstand extreme temperatures. Ideal for distributor caps, electric engines, equipment, switches and cables.

Instructions for use:

1. **Ensure the electrical equipment is disconnected from the power supply!**
2. Always shake the spray can well before use.
3. Spray the relevant components with the product. Allow the product to dry for at least 10 - 15 minutes before reconnecting the power supply.

Product usage:

Depending on use.

Considerations during application:

Always place a reference test on the to be treated surfaces in order to determine both adhesion and the technical and aesthetic result.

Specifications:

Appearance:	Gas/Aerosol
Color:	Colorless
Scent:	Characteristic
Flammability:	Flammable aerosol
Explosive properties:	Container can burst under pressure due to heating.

Packaging and industrial waste:

Treat as industrial waste in accordance with the applicable regulations. Collect process water in accordance with the applicable local regulations.

Hazard symbols and H & P statements (CLP):

GHS02
Danger

GHS08

H-Phrases: H220 - Extremely flammable gas.

H340 - May cause genetic defects (if swallowed).

P-Phrases: P210 - Keep away from hot surfaces, open flames, sparks. — No smoking.

P377 - Leaking gas fire: Do not extinguish, unless leak can be stopped safely.

P381 - Eliminate all ignition sources if safe to do so.

P403 - Store in a well-ventilated place.

This information is based on laboratory tests and practical experience. **For application and use, please adhere strictly to the descriptions in the technical product information sheets and MSDS sheets.** We do not accept any liability for any advice provided by us. The application, use and handling of the products are the sole responsibility of the user. All our documents and texts have been prepared to the best of our knowledge, language and translation errors are expressly excluded and can never lead to any liability.

Power Protect is part of the Impressed Pro[®] Marine product range, developed to clean and preserve all types of all common surfaces and materials on and around boats and/or ships. For specific questions and applications, as well as for the up-to-date TDS and MSDS sheets, please visit our website www.impressedpro.com or contact your distributor and / or technical advisor.
